Program at a Glance

Practice Partner is a wholesale licensing program built for accounting professionals who want to own the client relationship, own the pricing, and own the brand — without owning the infrastructure.

You pay one flat license fee per month and a flat per-client seat. We handle the platform, the AI, the bank feeds, the receipts, and the compliance. You handle your clients. Everything they see wears your brand.

What's included

- **Unlimited client companies** under one login
- **Full white-label** — your logo, your colours, your domain (annual plans)
- **Multi-client dashboard** with consolidated reporting across your book
- **AI transaction categorisation** — junior staff service 3× the clients
- **Bank-feed reconciliation** via Plaid (US) and Open Banking (UK)
- **Receipt OCR** for every client via Veryfi
- **Client-invite flow** — you onboard clients, we never touch them
- **Partner analytics** — revenue, retention, at-risk accounts
- **Priority support** — dedicated Slack channel, 4-hour SLA
- **“Certified Practice Partner” badge** — for your website

Pricing

Plan	Price	White-label domain	Best for
Monthly	\$349 / mo	+\$100/mo add-on	Solo bookkeepers testing the model
Annual	\$3,700 / yr	Included	Firms with 20+ clients (saves \$488/yr)
Enterprise (250+ clients)	Custom	Included + SLA	Multi-office firms, accounting networks

How it works

1	SIGN UP	\$349/mo or \$3,700/yr. Firm license activates instantly. Configure your brand: logo, colours, domain (annual).
2	INVITE CLIENTS	Send each client a branded invite. They see your firm, not ours. \$15/mo per active client seat, billed to you monthly.
3	KEEP THE DELTA	Charge your clients whatever you want. Common range: \$40–\$100/mo. You keep 100% of the difference — recurring, life-of-account.

What your clients see

A modern bookkeeping app, wearing your firm's brand. They never see the words “Business Software” anywhere. Support requests route through your firm-branded portal, giving you full control of the client relationship.

- Auto bank reconciliation with AI category suggestions
- Snap-a-photo receipt capture (with OCR)
- Direct chat channel to your firm inside the app
- Real-time balance, P&L, and cash-flow views
- Monthly close-out ritual with one-click approval

The economics — what you make

Assumes you charge your clients **\$50/month** each — competitive with QBO Essentials plus light bookkeeping. Adjust up or down to fit your market.

Clients	Firm license	Seat fees	Your cost	Client revenue	Net profit / mo	Annual
5	\$349	\$75	\$424	\$250	-\$174	-\$2,088
10	\$349	\$150	\$499	\$500	\$1	\$12
20	\$349	\$300	\$649	\$1,000	\$351	\$4,212
30	\$349	\$450	\$799	\$1,500	\$701	\$8,412
50	\$349	\$750	\$1,099	\$2,500	\$1,401	\$16,812
75	\$349	\$1,125	\$1,474	\$3,750	\$2,276	\$27,312
100	\$349	\$1,500	\$1,849	\$5,000	\$3,151	\$37,812
200	\$349	\$3,000	\$3,349	\$10,000	\$6,651	\$79,812

Break-even lands at **10 clients**. Every additional client above that is roughly **\$35 of pure margin** — clean recurring revenue you own, priced by you.

If you charge \$75/client (full-service bookkeeping)

Clients	Client revenue	Total cost	Net / mo	Annual
10	\$750	\$499	\$251	\$3,012
30	\$2,250	\$799	\$1,451	\$17,412
50	\$3,750	\$1,099	\$2,651	\$31,812
100	\$7,500	\$1,849	\$5,651	\$67,812

Why not just use QuickBooks?

QBO Accountant is free — but the wholesale pricing is tiered (Simple Start / Essentials / Plus / Advanced), which means your monthly bill depends on *which mix of clients* you happen to have that month. Practice Partner is flat.

Feature	QBO ProAdvisor	Xero Partner	Practice Partner
Cost to accountant	Free	Free	\$349/mo flat
Per-client cost	\$15–100 tiered	£14–£65 tiered	\$15 flat
White-label branding	Not available	Limited	Full white-label
Custom domain	Not available	Not available	Included (annual)
AI categorisation	Limited	Basic	Built-in, all tiers
Multi-client dashboard	Yes	Yes	Yes
Reporting consolidation	Manual	Partial	Auto-consolidated
UK FRS 102 + HMRC	Weak (US-first)	Native	Native
US GAAP + IRS	Native	Weak (UK-first)	Native
Setup fee	\$0	\$0	\$0

Where we lose

QuickBooks has 30 years of market presence, deeper GAAP tooling for unusual edge cases, and the largest accountant network in the world. If you're deep in a QBO-only workflow with complex clients, migration will take real work.

Where we win

Flat pricing, real white-label, AI-native categorisation, dramatically cheaper per client above 20 clients, and equally strong on US + UK accounting standards. The switching pain typically breaks even after one billing cycle at 30+ clients.

Affiliate program

If you have an audience of accounting professionals — a newsletter, YouTube channel, LinkedIn following, or CPE course — Practice Partner pays \$125/month per referred firm, for the life of the account. No cap. No degradation. Real recurring income.

Firms referred	Monthly income	Annual income	5-year total
5	\$625	\$7,500	\$37,500
10	\$1,250	\$15,000	\$75,000
20	\$2,500	\$30,000	\$150,000
50	\$6,250	\$75,000	\$375,000
100	\$12,500	\$150,000	\$750,000
200	\$25,000	\$300,000	\$1,500,000

Program terms

- **\$125/mo per referred firm**, paid monthly by ACH
- **Lifetime commission** — as long as the firm pays, you get paid
- **No cap**, no degradation, no tier gates
- **90-day clawback** — if the firm cancels in the first 90 days, the payout is reversed
- **Full marketing kit** — banners, one-pagers, comparison decks, UTM links, live referral dashboard
- Payouts held in escrow until firm completes their first billing cycle

“Refer 20 firms. Take home \$2,500/mo — forever. This isn't affiliate marketing. It's a career.”

FAQ

Can my clients cancel and take their data with them?

Yes. Full CSV export, QuickBooks Online export, and IIF for QuickBooks Desktop. Client data is portable by default.

What happens if I cancel Practice Partner?

Your firm keeps read-only access for 90 days. Clients can migrate to a self-serve Business Software plan or export their data to another platform. No lock-in.

Is white-label included in the \$349?

Custom colours and logo, yes. Custom domain (yourfirm.com portal) is included on annual plans, or +\$100/mo on monthly plans.

What if I have 500+ clients?

Above 250 clients we shift to Enterprise pricing — lower per-seat rate, dedicated Customer Success Manager, and priority SLAs. Contact sales for a custom quote.

Do you support UK VAT and FRS 102?

Yes. Full UK statutory support including FRS 102 chart of accounts, HMRC-compliant filings, Companies House format, VAT return generation, and native GBP handling.

Can I set client-facing pricing myself?

Yes. You set client pricing, you bill your clients, you own the relationship. We only bill you — the firm — for the license and seat fees. We never see or touch your client billing.

How is client data segregated?

Each firm's client data is isolated. We're pursuing SOC 2 Type II certification, UK GDPR compliant, and maintain full audit logs. No cross-firm data access, ever.

Who owns the client relationship?

You do — completely. We are pure infrastructure. Your clients see your brand, contact your firm, and never see or hear from us.

Can I bring my QBO clients over?

Yes. We provide a QBO import tool that pulls chart of accounts, customers, vendors, transactions, and open invoices. Typical firm migration takes 2-3 hours per client.

What integrations are included?

Plaid (US bank feeds), Open Banking (UK), Veryfi (receipt OCR), QuickBooks Online (bi-directional sync), Stripe, Sage, Xero. Full integration list in the client dashboard.
